

For Immediate Release: November 9, 2015

**INTERTEK WARNS OF INVALID cETLus CERTIFICATION MARK
ON GROZONE BRANDED CO2 GENERATOR**

Intertek Testing Services (ETL) notifies consumers, retailers and distributors that the CO2 Generator bears an invalid cETLus Certification Mark where the previous Listing standards have been withdrawn (IAS U.S. Requirement No. 2-95 and CSA TIL R-05). CO2 Generators must now be individually Field Evaluated.

Products in use should be discontinued from use until evaluated to safety criteria for ozone depletion dependent on each unique installation and must meet the following specific criteria:

Evidence of mitigation of Oxygen Depletion Hazard must be verified and documented by an Intertek Field Inspector.
